Table of Contents

Monitor data protection operations on SAP HANA databases in the Activity pane 1

Monitor data protection operations on SAP HANA databases in the Activity pane

The Activity pane displays the five most recent operations performed. The Activity pane also displays when the operation was initiated and the status of the operation.

The Activity pane displays information regarding backup, restore, clone, and scheduled backup operations.

Steps

1. In the left navigation pane, click **Resources**, and then select the appropriate plug-in from the list.
2. Click  on the Activity pane to view the five most recent operations.

When you click one of the operations, the operation details are listed in the Job Details page.
